Shastri Nagar, Delhi-110031.

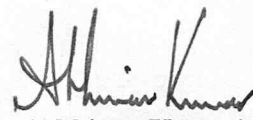

**Sub: Modification in the existing designs of construction of boundary wall in Ridge and other forest areas of Department of Forests and Wildlife, Govt. of NCT of Delhi-reg.**

In view of instances regarding destruction of course rubble masonry wall due to change of alignment by miscreants and interested parties and as the design of the boundary wall has now been obsolete, the Competent Authority has approved the new design for the boundary walls, as enclosed herewith, where RCC pillars are embossed with DOFW interspersed with course, rubble masonry along with small passages for unaffected movement of reptiles and other wild animals.

In this connection, it is further conveyed that, areas that do not fall under the Ridge, i.e., Yamuna Floodplains and City Forests no course rubble masonry is insisted upon. In such non-ridge areas, RCC pillars design with 3 m height and pillar to pillar distance of about 3 metres covered with wire mesh and barbed wire on slanted portion of pillars can be adopted.

This issues with the approval of the Competent Authority.

(E/A)

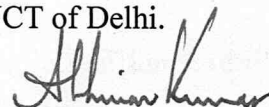

(Abhinav Kumar)

Deputy Conservator of Forests (HQ)
